

October is Breast Cancer Awareness Month

Some disturbing statistics: about 207,090 new cases of invasive breast cancer will occur among women in the United States during 2010. An estimated 39,840 women will die from breast cancer this year. Also, about 1,970 men will be diagnosed and 390 men will die of breast cancer during 2010 in the United States. In addition to invasive breast cancer, an estimated 54,010 new cases of in situ breast cancer will occur among women in 2010. Given these statistics, we all need to take care of ourselves and each other in combating this deadly disease.

Along those lines, several members of our legal community recently participated in the Tutus for Tatas “A Taste of Hope” Fashion Show & Luncheon on October 9, 2010 which raises money for the Susan G. Komen for the Cure Foundation. See below for some pictures from this great event.
